

Captain Super GrinSM Activity 1:

About our mouths

Name: _____

Match the tooth term to the correct definition.

Enamel		The part of the tooth that is in the bone down in the gums. It keeps the tooth in place
Dentin		The bone-like tissue that makes up the main part of the tooth
Pulp		The soft, middle part of the tooth that has blood vessels and nerve endings in it
Root		The hard, outer layer that protects the tooth
